

# Chapter 1 - Introduction

# Lessons

1. gym installation
2. jupyter installation

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

## 2. jupyter installation

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The agent and its environment

## 5. Actions

## 6. Rewards

## 7. Goals and corresponding reward functions

## 8. Episodes

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The **agent** and its environment

## 5. Actions

## 6. Rewards

## 7. Goals and corresponding reward functions

## 8. Episodes

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The **agent** and its **environment**

## 5. Actions

## 6. Rewards

## 7. Goals and corresponding reward functions

## 8. Episodes

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The **agent** and its **environment**

## 5. **Actions**

## 6. Rewards

## 7. Goals and corresponding reward functions

## 8. Episodes

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The **agent** and its **environment**

## 5. **Actions**

## 6. **Rewards**

## 7. Goals and corresponding reward functions

## 8. Episodes

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The **agent** and its **environment**

## 5. **Actions**

## 6. **Rewards**

## 7. **Goals** and corresponding reward functions

## 8. Episodes

# Lessons

## 1. gym installation

- ▶ Skip if familiar with `virtualenv`

```
rl_course  
|---- venv          <-- pip install gym notebook
```

## 2. jupyter installation

- ▶ Skip if familiar with `jupyter`

## 3. Setting up a Reinforcement Learning problem

## 4. The **agent** and its **environment**

## 5. **Actions**

## 6. **Rewards**

## 7. **Goals** and corresponding reward functions

## 8. **Episodes**
